Designer's Notes

Elegant, comfortable and spacious, the beamed ceiling and original 1920s fireplace mantel are a wonderful backdrop for this divine space. Design Tip: Adding a limewash to the ceiling will add an interesting custom flair. Photography by SLP.

Designer's Notes

The Italian Rococo coffee table is complemented by French antiques and luscious rich silks to create a elegant, relaxed ambiance. Design Tip: Find a favorite shade of silk for draperies and then color match the paint to create a dramatic monochromatic backdrop in any room.

Designer's Notes

The handsomely comfortable bedroom features rich mahogany woods, Frette sheets, cashmere coverlets and a cozy place to read. Design Tip: Originally, the bed and armoire were switched. Sometimes just moving a few pieces of furniture creates a wonderful new space. Photography by SLP

Designer's Notes

To create a beautiful space for children and make it last without going over budget, mix favorite themes like this Bunny Business print with a solid. The areas that have the theme can be replaced as the child ages and the solid will go with anything. Sunbrella fabrics are also a great choice because of stain resistance.

Designer's Notes

Luscious, smokey lavender silks and velvets are used in this this romantic bedroom, which also features a custom-designed boudoir chaise with tufted buttons to lounge and fabulous original French art. Design Tip: For a little extra pizzazz, find some beautiful rhinestone brooches and pin to every third drapery pleat.
